UNDERSTANDING YOUR TELEPHONE BILL

The following are items that can be found on your local telephone bill. Each item originates either from LaWard Telephone Exchange, Inc.'s local exchange tariff that is regulated by the Public Utility Commission of Texas or it comes from State or Federal mandates.

LINE ACCESS-RESIDENTIAL OR BUSINESS (BASIC LOCAL SERVICE)

The charge allows access to the local exchange service area in accordance with the provision of the Company's tariff.

EXPANDED LOCAL CALLING RESIDENTIAL OR BUSINESS

The charge was created through a balloting of customer to allow a larger local calling scope to encompass particular communities-of-interest that would be outside the normal calling area.

END USER ACCESS RESIDENTIAL OR BUSINESS

The charge recovers Interstate costs associated with the telephone equipment for single or multi-line customers.

911 JACKSON / CALHOUN FEE

The fee funds the provision of 9-1-1 emergency telecommunications services.

911 EQUALIZATION SURCHARGE

Effective March 1, 2012, the Texas Legislature changed the fee from being a percentage of your Intrastate long distance service to a flat monthly charge of \$0.06 applied to each access line. This fee, set by the Texas commission of State Emergency Communications, provides financial support for Texas regions where the monthly 9-1-1 fee does not fully offset the cost of 9-1-1 service.

TEXAS UNIVERSAL SERVICE FUND

The surcharge allows affordable service to high-cost rural customers, funds the Relay Texas and Specialized Telecommunications Assistance programs for the hearing-disabled, and funds telecommunications services discounts to low-income customers. A percentage is assessed on State taxable telecommunications services.

FEDERAL UNIVERSAL SERVICE FUND SURCHARGE

The surcharge funds telecommunications services discounts to schools, libraries, rural health care providers, and low-income customers. It also provides funds to local telephone companies that serve rural and high-cost areas. Assessed on interstate long distance charges at percentages which vary by long distance carriers.

FEDERAL EXCISE TAX

The proceeds go directly to the U.S. general revenue fund. A percentage is assessed on all billed local services. State and Local Sales Tax Taxes are levied on tangible personal property and taxable services, including telecommunications services.

TEXAS TELECOMMUNICATIONS INFRASTRUCTURE FUND

The Texas Telecommunications Infrastructure Fund (TIF) Reimbursement Surcharge is included on customer bills and is calculated as determined by the Texas Comptroller of Public Accounts.

Texas Utilities Code Section 57.048 permits the company to recover the current assessment from its customers.

SERVICE CONNECTION CHARGES

The one-time service charges under which the customers pay for the service of setting up service, whether it is installing and/or moving, reconnection or additional features are based on the work performed of the customer request.

The service charges associated are below:

1. Primary Service Order Charge (per number) applies to new service or transfer between premises.

Service Without Discrimination

The Company strives to provide quality telecommunications services for all consumers at fair and reasonable prices.

We provide service without discrimination as to race, nationality, color, religion, sex or marital status.

Credit History

The Company may require a residential applicant for service to establish and maintain satisfactory credit as a condition of providing service. Establishment of credit shall not relieve any customer from complying with the Company's requirements for prompt payment of bills. The credit worthiness of spouses established during the last 12 months of shared service prior to their divorce will be equally applied to both spouses for 12 months immediately after their divorce.

A residential applicant can demonstrate satisfactory credit using one of the following criteria: has been a customer of any utility for the same kind of service within the last two years; is not delinquent in payment of any utility service account, during the last 12 consecutive months of service was not late in paying a bill more than once, did not have service disconnected for nonpayment; and obtained a letter of credit history from the applicant's previous telephone company.

A residential applicant may also demonstrate a satisfactory credit rating by appropriate means, including, but not limited to: the production of generally acceptable credit cards; letters of credit references; letter of guarantee; the names of credit references which may be quickly and inexpensively contacted by the company; ownership of substantial equity that is easily liquidated; and a residential applicant that is 65 years of age or older and does not have an outstanding account balance incurred within the last two years with the company or another company for the same type of company service.

YOUR RIGHTS AS A CUSTOMER

SERVING TEXAS WITH PRIDE

Deposit

If the Applicant does not demonstrate satisfactory credit using the criteria stated above, the applicant may be required to pay a deposit.

During the first 12 months of service, the Company may request an additional deposit from a residential customer.

To require the deposit, the customer's actual usage must be three times estimated usage (or three time average usage of most recent three bills), exceed \$150, and exceed 150%, of the security held. An additional deposit may also be required if actual billings of a residential customer are at least twice the amount of the estimated billings after two billing periods, and a suspension or disconnection notice has been issued for the account within the previous 12 months. An additional deposit may be required to be paid within 10 days after issuing a written notice of suspension or disconnection and request additional deposit. Instead of additional deposit, the customer may elect to pay the total amount due on the current bill by the due date of the bill, provided the customer has not exercised this option in the previous 12 months. The Company may disconnect service if the additional deposit or the current usage payment is not paid within ten days of request and written disconnection notice to the customer.

The Company shall pay interest on deposits at a rate set annually by the Public Utility Commission. If a refund of the deposit is made within 30 days of receipt of a deposit, no interest payment is required. If the company retains the deposit more than 30 days, payment of interest shall be made retroactive to the date of deposit.

You may request payment of interest annually or at the time the deposit is returned or credit to your account. The deposit shall cease to draw interest on the date it is returned or credited to your account. If service is not connected, or after disconnection of service, the Company shall promptly and automatically refund your deposit plus accrued interest or the balance, if any, in excess of the unpaid bills for service furnished. A transfer of service from one premise to another within the service area of the Company shall not be deemed as a disconnection and no additional deposit will be required unless permitted by these rules or otherwise stated in the tariff. When you have paid for service for 12 consecutive residential billings or for 24 consecutive business (commercial or industrial) billings without

having service disconnected for nonpayment of bill and without having more than two occasions in which a bill was delinquent, and when you are not delinquent in the payment of current bills, the Company shall promptly and automatically refund your deposit, plus accrued interest, in the form of cash or credit to your bill, or void the guarantee.

If your payment history does not meet these refund criteria, the deposit and interest may be retained in accordance with the rules requiring the deposit. If credit requirements for non-residential applicants have not been demonstrated satisfactorily to the Company, the applicant may be required to pay a deposit. Our service representative can give you more information on any of these methods of establishing credit.

Bill Payment

Prompt payment is always appreciated, as your telephone bill is due upon receipt and is considered past due if it has not been paid within 16 days after the bill issuance (postmark) date of the bill. Should the 16th day fall on a weekend or holiday, the due date will be the next workday.

Please make payment in full and on time each month, or call your service representative to find out about special payment arrangements. You have the right to continue basic local service as long as full payment for the local service portion of your bill has been timely made.

Time Allowed To Pay Bill

If your telephone bill has not been paid or a payment arrangement or deferred payment agreement entered into within 16 days after the bill issuance (postmark) date of the bill, your service may be terminated. If your bill becomes delinquent, the Company will provide a 10-day written notice before terminating your service. Should you be asked to make an additional deposit based on your actual usage, and you do not pay the deposit or usage within 10 days, service may be terminated.

Alternative Payment Plans

Customers have a right to request an alternative payment plan.

A “**payment arrangement**” is any agreement between the company and a customer, which allows the customer to pay the outstanding bill after its due date but before the due date of the next bill. If the Company issued a suspension or disconnection notice before the payment arrangement was made, that suspension or disconnection should be suspended until after the due date for the payment arrangement. If a customer does not fulfill the obligations of the payment arrangement, the Company may suspend or disconnect service after the later of the due date for the payment arrangement or the suspension or disconnection date indicated in the notice, without issuing an additional notice.

A “**deferred payment plan**” is any written agreement between the Company and a customer that allows a customer to pay an outstanding bill in installments that extend beyond the due date of the next bill. A deferred payment plan may be established in person or by telephone, and all deferred payment plans shall be put in writing. The Company will offer a deferred payment plan to any residential customer, including a guarantor or any residential customer, who has expressed an inability to pay all of the bill, if that customer has not been issued more than two suspension or disconnection notices during the preceding 12 months. Every deferred payment plan shall provide that the delinquent amount may be paid in equal installments over at least three billing cycles. The Company may disconnect a customer who does not meet the terms of a deferred payment plan.

Prepaid Local Telephone Service

Prepaid Local Telephone Service (PLTS), is a program that helps customers manage outstanding telephone balances and retain basic local telephone service. Customers do have an option to receive basic local telephone service without entering PLTS if the customer does not owe for basic telephone service. The Public Utility Commission of Texas has directed that we provide this service. PLTS gives eligible customers a one-time opportunity to retain their local service if they are at risk of disconnection of their local service for nonpayment of telephone bills. It also allows residential customers who have been disconnected because of delinquent or unpaid bills to be reconnected. PLTS is not available to business customers.

To receive this service, you must agree to receive Toll Blocking/Restriction Service, which will prevent you from making long distance telephone calls or usage-sensitive calls (where technically available) which include directory assistance, call return, call trace, and auto redial.. In subscribing to PLTS, you agree not to incur additional charges for long distance or usage-sensitive services. In addition, you agree not to request additional services from your local telephone carrier other than those included in the PLTS subscription. If you violate the terms of this agreement you can be disconnected immediately and will not be eligible to receive PLTS service again from this Company.

To subscribe to PLTS, you must also pay up to two months of charges in advance. You must arrange a deferred payment plan with the Company for your outstanding local telephone charges. Payments for those charges will begin with the third billing cycle after you subscribe to PLTS. The monthly payments on this plan may not exceed \$10 per month or one-twelfth of the outstanding local debt, whichever is larger. You must pay your PLTS bill by the due date. You may contact the Company’s business office during normal business office hours regarding PLTS.

If your telephone has been disconnected and you apply for PLTS within 10 days of receiving notice, you will not be required to pay the reconnection charge for restoring service at this time. You will be required to pay reconnection charges when you return to basic local telephone service.

Charges on Your Telephone Bill-Cramming

Placing charges on your phone bill for products and services without your consent is known as “cramming” and is prohibited by law. Your telephone company may be providing billing services for other companies, so other companies’ charges may appear on your telephone bill. If you believe you were “crammed”, you should contact the telephone company that bills you for your telephone service, La Ward Telephone Exchange, Inc., at 1(877)872-2213 and request that it take corrective action. The Public Utility Commission of Texas requires the billing telephone company to do the following within 45 days of when it learns of the unauthorized charge :

- Notify the service provider to cease charging you for the unauthorized product or service;
- Remove any unauthorized charge from your bill;
- Refund or credit all money to you that you have paid for an unauthorized charges; and
- On your request, provide you with all billing records related to any unauthorized charge within 15 days after the charge is removed from your telephone bill.

If the company fails to resolve your request, or if you would like to file a complaint, please write or call the Public Utility Commission of Texas, P.O. Box 13325, Austin, Texas 78711-3325, (512) 936-7120 or toll-free in Texas at (888)-782-8477. Hearing and speech-impaired individuals with text telephones (TIY) may contact the commission at (512) 936-7136.

Your phone service cannot be disconnected for disputing or refusing to pay unauthorized charges.

You may have additional rights under state and federal law. Please contact the Federal Communications Commission, The Attorney General of Texas, or the Public Utility Commission of Texas if you would like further information about possible additional rights.

Selecting a Telephone Service Provider – Slamming

Telephone companies are prohibited by law from switching you from one telephone service provider to another without your permission, a practice commonly known as “slamming”. If you are slammed, Texas law requires the telephone company that slammed you to do the following:

1. Pay, within five(S)business days of your request, all charges associated with returning you to your original telephone company.
2. Provide all billing records to your original telephone company within ten (10) business days of your request.
3. Pay, within 30 days, your original telephone company the amount you would have paid if you had not been slammed.
4. Refund to you within 30 business days any amount you paid for charges during the first 30 days after the slam and any amount more than what you would have paid your original telephone company for charges after the first 30 days following the slam.

Your Original telephone company is required to provide you with all the benefits, such as frequent flyer miles, you would have normally received for you telephone use during the period in which you were slammed.

If you have been slammed, you can change your service immediately back to your original provider by calling your authorized telecommunications provider (your original provider) and advising the company that you have been switched from its service without appropriate authorization. You should also report the slam by writing or calling the Public Utility Commission of Texas, P.O. Box 1336, Austin, Texas 78711-3325, (512) 936.7120 or in Texas (toll-free) 1 (888) 782.8477, fax: (512) 936.7003, email address: customer@puc.state.tx.us. Hearing and speech-impaired individuals with text telephones (TTY) may contact the commission at (512) 936.7136.

You can prevent slamming by requesting a preferred telephone company freeze from your current service provider. With a freeze in place, you must give formal consent to “lift” the freeze before your phone service can be changed. A freeze may apply to local toll service, long distance service, or both. The Public Utility Commission of Texas can give you more information about freezes and your rights as a customer.

Fraudulent or Abuse of Telephone Service

The tariffs provide for suspension or termination of telephone service for abuse or fraudulent use. Abuse or fraudulent use includes the use of telephone company service or facilities to transmit a message, locate a person or otherwise give or obtain information without payment of a long distance charge. Abuse or fraudulent use also includes charging a long distance call to a false number, to an unauthorized credit card number or to another number without permission. For your protection, new equipment and procedures enable the telephone company to detect and investigate fraudulent use of telephone facilities. Federal and State laws provide that no person shall defraud the telephone company of its lawful charges. Violators, upon conviction, are subject to imprisonment, fine or both.

Threatening Or Obscene Telephone Calls

If you receive obscene or nuisance calls, follow these suggestions:

- Hang up
- Give no information
- Advise children to do the same

Making threatening, obscene, or nuisance calls is a violation of State and Federal laws. If you receive a threatening call, report it immediately to the police. Many optional telephone features, including Caller ID Name and Number, Anonymous Call Rejection and Call Trace, are available in most areas that can help prevent annoying calls. For further information about these features, see the Calling Features section of this directory. Sometimes changing your telephone number will resolve the problem.

Call the company business office at 361-872-2211 for more information.

Beware of Phone Scams

Hundreds of people are cheated every day by fraudulent sales callers who use high pressure tactics to get you to buy something. Beware of telephone callers who promise you a "free" trip, expensive accommodations or gifts. To protect you and your business from telemarketing fraud, remember these tips:

1. Be very cautious in giving out your credit card number over the telephone.
2. Be careful if the caller says you must make the investment or agreement immediately. Ask for information to be sent to you.
3. Ask the salesperson for the name, address and telephone number of the company, and the names and titles of its officers.

4. Check with the local Better Business Bureau or Consumer Protection Agency concerning the offer and the company.

5. Be wary of offers for free merchandise or prizes; the handling fees you pay for the gifts may be higher than their value.

In summary: remember, an offer that sounds too good to be true, probably is. Also, realize you are often better off saying a strong "NO" or "NOT INTERESTED" to a pushy salesperson, than receiving hundreds of dollars worth of .5* bills unknowingly charged to your account.

Telephone Solicitation

Texas Business & Commerce Code Section 37 .02 provides certain protections for a person who receives a telephone solicitation at a residence. A telephone solicitor who calls a residential number must:

- Identify himself or herself by name;
- Identify the business on whose behalf he or she is calling;
- Identify the purpose of the call
- Identify the telephone number at which the person, company, organization making the call may be reached.

A telephone solicitor may not call a residence before 9am or after 9pm on a weekday or Saturday, or before noon or after 9pm on Sunday. If a telephone solicitor uses an automatic dialing/announcing device, the machine must disconnect from your line within 30 seconds after the termination of the call.

The above requirements do not apply to telephone solicitations made at your request, or solicitations made in connection with an existing debt or contract, or calls from a telephone solicitor with whom you have a prior or existing relationship.

Debt Collection Purposes

The Federal Communications Commission has received information that interstate telephone service is being used for collection of claimed debts in ways that are or may be in violation of applicable tariffs of the telephone companies and criminal statutes. Practices alleged include calling at odd hours of the day or night; repeated calls; calls to friends, neighbors, relatives, employers and children; calls making a variety of threats; calls asserting falsely that credit ratings will be hurt; calls falsely stating that legal process is about to be served; calls demanding payments for amounts not owned; calls to places of employment; and calls misrepresenting the terms and conditions of

existing or proposed contracts. Although many of these calls are placed on a local basis, there is increasing indication that such improper practices also involve use of interstate toll and Wide Area Telephone Service (WATS).

If it is determined that no billing error occurred, your rights and obligation are as follows:

Once La Ward Telephone Exchange, Inc. and your long distance company have complied with FTC Rule §308.7(d) regarding a claim you make of a billing error, there is no further responsibility under that section if you continue to make substantially the same allegation.

You cannot be charged for a billing review.

The provider of the 900 service, your long distance company or La Ward Telephone Exchange, Inc. may take action to collect the sum outstanding that is determined not to be the result of a billing error if you continue to withhold payment of the disputed amount once the billing review is completed. Failure to pay the amount determined not to have been the result of a billing error may be reported to a credit reporting agency or subject you to a collection agency. If you continue to dispute any portion of your billing error claim, the fact your account is delinquent will be reported only if we also report that the amount that remains is in the dispute, the amount, and tell you to whom we have made such a report. If the dispute is subsequently resolved, that fact will be reported to all who received the initial report that the account was delinquent.

If either we, as our billing entity, or your long distance company, as a billing entity, fail to follow the billing and collection procedures prescribed by §308.7 of the FTC rule implementing that Federal Telephone Disclosure and Dispute Resolution Act, we are obligated to forfeit any disputed amount, up to \$50 per transaction.

INFORMACIÓN PARA CLIENTES

El Depósito

Si el solicitante no demuestra crédito satisfactorio usando el criterio indicado arriba, puede ser requerido de parte del solicitante el pago de un depósito.

Durante los primeros 12 meses de servicio, la Compañía puede solicitar un depósito adicional de un cliente residencial. Para requerir el depósito, el uso real del cliente debe ser tres veces el uso estimado (o tres veces el uso medio de las tres facturas más recientes); exceder \$150, y exceder 150% de la seguridad sostenida. Puede requerirse un depósito adicional si las facturas reales de un cliente residencial son por lo menos dos veces la cantidad de las facturas estimadas después de dos periodos de facturación; y una suspensión o aviso de desconexión se ha emitido para la cuenta dentro de los últimos 12 meses. Puede exigir que un depósito adicional sea pago dentro de diez días después de emitir un aviso escrito de suspensión o desconexión y pedido el depósito adicional. En lugar del depósito adicional, el cliente puede elegir pagar la cantidad total debido en la factura actual para la fecha debida de la factura, con tal de que el cliente no ha ejercido esta opción en los últimos 12 meses. La Compañía puede desconectar el servicio si el depósito adicional o el pago del uso actual no está pago dentro de diez días del pedido y la noticia escrita al cliente de la desconexión.

La Compañía pagará interés en los depósitos a una tasa ajustada anualmente por la Comisión de Utilidades Públicas. Si un reembolso del depósito es hecho dentro de 30 días del recibo del depósito, no se requiere ningún pago de interés. Si la Compañía retiene el depósito por más de 30 días, el pago de interés se hará retroactivo a la fecha del depósito.

Usted puede pedir el pago de interés anualmente o en el momento que le devuelvan el depósito o lo acreditan a su cuenta.

Si no se conecta el servicio, o después de la desconexión de servicio, la Compañía debe rápidamente y automáticamente reembolsar su depósito más el interés acumulado o el saldo, si hay en exceso de las facturas que no fueron pagas por el servicio suministrado. Un traslado de servicio de una premisa a otra dentro del área de servicio de la Compañía no será considerado una desconexión y ningún depósito adicional será requerido a menos que sea permitido por estas reglas o de otra manera declarado en el arancel. Cuando usted ha pagado por el servicio por 12 facturas residenciales consecutivas o por 24 facturas de negocio (comercial o industrial)

sin tener el servicio desconectado por falta de pago de la factura o sin tener más de dos ocasiones en que una factura fue delincente, y cuando usted no está delincente en el pago de sus facturas actuales, la Compañía debe rápidamente y automáticamente reembolsar su depósito, más el interés acumulado, en la forma de dinero en efectivo o un crédito a su factura, o anula la garantía.

Si su historia de pago no satisface el criterio de reembolso, el depósito y el interés puede ser retenido de acuerdo con las reglas que requieren el depósito. Si los requisitos de crédito para solicitantes no residenciales no se han demostrado satisfactoriamente a la Compañía, el solicitante puede ser requerido a pagar un depósito. Nuestro representante de servicio puede darte más información sobre cualquiera de estos métodos de establecer crédito.

El Pagamiento de Facturas

Siempre apreciamos pagos rápidos como su factura telefónica se debe cuando recibes y es considerado atrasado si no lo ha pago dentro de 16 días después de la emisión de la factura (el matasellos) fecha de la factura. Seleccionando Un Portador De Telecomunicaciones

La Comisión de Utilidades Públicas de Texas ha dirigido que cada utilidad de telecomunicaciones proporcione este aviso a clientes sobre sus derechos al seleccionar una utilidad de telecomunicaciones. Las utilidades telefónicas (compañías de teléfono) son prohibidas por ley de cambiarlo de portador de servicio telefónico a otro sin su autorización, una práctica conocida como “**cerrar de golpe.**”

Si usted le ha cerrado de golpe, usted debe avisar a su nuevo proveedor- la compañía de teléfono que le cambie sin autorización- y demandar que le devuelvan a su proveedor de servicio de teléfono original.

La ley de Texas requiere a un proveedor de servicio de teléfono local o a larga distancia (compañía de teléfono) que le ha cerrado de golpe hacer lo siguiente:

1. Devolverlo a su compañía de teléfono original dentro de **tres días laborables** de su demanda.
2. Dentro de **cinco días laborables** de su demanda, pagar todos los cargos usuales y de costumbre asociado con devolverlo a su compañía de teléfono original de regresar a su compañía telefónica original.
3. **Dentro de 10 días laborables** de su demanda de regresar a su compañía telefónica original, proporcionar todo su historial de facturación a su compañía telefónica original.
4. Pagar a la compañía telefónica original la cantidad que usted habría pagado a ellos si usted no hubiera sido cerrado de golpe.
5. Reembolsar a usted, dentro de **30 días laborables**, cualquier cantidad que usted pagó a más de la cantidad que usted habría pagado por servicios idénticos a su compañía telefónica original si usted no hubiera sido cerrado de golpe.

Favor de notar que una vez que su compañía telefónica original se ha pagado por la compañía que le cerró de golpe, su compañía telefónica original se requiere por ley de proporcionarle todos los beneficios (e.g. millas para viajeros frecuentes) que usted hubiera recibido normalmente por su uso de teléfono durante el periodo en que usted fue cerrado de golpe.

Quejas relacionadas con cerradas de golpe, el cambio desautorizado en la compañía telefónica de un cliente, son investigadas por la Comisión de Utilidades Públicas de Texas. Si una compañía telefónica lo cierre de golpe y no resuelve su demanda a ser devuelto a su servicio de telecomunicaciones local o a larga distancia original como requerido por ley o si le gustaría una historia de queja para una compañía telefónica en particular, por favor escribe o llame a la Comisión de Utilidades Públicas de Texas, PO Box 13326, Austin, TX 78711-3325, (512) 936-7120, o en Texas (gratuito) 1-888-782-8477. Individuos con daños de audición o de lenguaje con teléfonos con texto pueden contactar la Comisión a (512) 936-7136.

Es posible que usted tenga derechos adicionales bajo la ley estatal o federal. Favor de contactar la Comisión de Utilidades Públicas si le gustaría más información sobre estos derechos adicionales. Además, por favor no dude en contactar La Ward Telephone Exchange, Inc. Hwy 172, La Ward, Texas 77970 (361) 872-2211, si usted tiene cualquier pregunta con respecto a la información contenida en este aviso.

Fondo De Servicio Universal De Texas/Texas Universal Service Fund

Es posible que usted note un cargo llamado “Servicio Universal de Texas/Texas Universal Service,” que pague por el fondo de servicio universal de Texas. Este fondo se creó por el estado de Texas para ayudar a pagar por clientes de bajos ingresos y clientes con incapacidades. Este cargo es aproximadamente 3.600% de su factura y pronto será compensado por reducciones en los cargos de larga distancia dentro del estado. Si usted tiene cualquier pregunta sobre este cargo o como es calculado, favor de llamar a su compañía telefónica.

Cargos Sin Autorización En Su Factura Telefónica/ Henchir

Poniendo cargos en su factura telefónica para productos o servicios sin su autorización es conocido como **“henchir/cramming”** y es prohibido por ley. Su compañía telefónica puede estar proporcionando servicios de facturación para otras compañías, entonces cargos de otra compañía pueden aparecer en su factura telefónica.

Si usted crea que fue “henchido,” usted debe contactar a la compañía telefónica que le manda facturas por su servicio telefónico y demandar que tomen alguna acción correctiva. La Comisión de Utilidades Publicas de Texas exige a la compañía telefónica de facturación hacer lo siguiente dentro de 45 días desde que sepa del cargo sin autorización:

- Notifique el proveedor de servicio para dejar de cobrarlo por el producto o servicio desautorizado;
- Quite cualquier cargo desautorizado de factura;
- Reembolsar o dar crédito a usted por todo el dinero que usted ha pagado por el cargo desautorizado; y
- Si usted lo pide, proporcionarle con todos los archivos de facturación relacionados a cualquier cargo desautorizado dentro de 15 días laborables después de que le quiten el cargo de su factura telefónica.

Disclosure Under FCC Rule §64.159(b)

The FCC also requires disclosures to telephone subscribers, which are as follows:

- Your local exchange and long distance service cannot be disconnected or interrupted as a result of your failure to pay charges for interstate pay-per-call service, charges for interstate information services provided pursuant to a presubscription or comparable arrangement, or charges you have disputed for interstate tariffed collect information services.
- You can obtain blocking of access to services offered on the 900 service access code where it is technically feasible, at no charge and on a one-time basis before January 1, 1994, or within 60 days after you subscribe to a new number and it becomes effective. Other requests for blocking, and requests for unblocking will be subject to a reasonable one-time fee. Our tariffs include the terms and conditions that apply.
- You have a right not to be billed for pay-per-call services not offered in compliance with Federal laws and regulations established under Titles II or III of the Telephone Disclosure and Dispute Resolution Act.
- Your access to 900 services may be involuntarily blocked for failure to pay legitimate pay-per-call charges.

Collect Calls

When you receive a collect call, prior to accepting the call, you have the option to ask the operator how much you will be billed and who is calling you. If you do not recognize the person who is calling you collect, use caution in accepting the call. Some collect callers in the past have been known to keep the called party on the line as long as possible to increase the collect call charges. If you do not recognize the collect call charges on your telephone bill, or believe that you were billed more for a collect call than the rate quoted by the operator, please call your local telephone company. You have the right to dispute unauthorized charges on your bill.

YOU MAY WANT TO KEEP THIS STATEMENT FOR FUTURE REFERENCE.

Revelación De Información Bajo La Regla De La Comisión Federal de Comunicaciones/ Federal Communications Commission (FCC) 64.159 (b)

El FCC también exige la revelación de la información a suscriptores de servicio telefónico que sigue:

- Su servicio de intercambio local y de larga distancia no puede ser desconectado o interrumpido como resultado de su falla de pagar cargos por el servicio pagar-por-llamada interestatal, cargos por servicios de información interestatal proporcionados consiguiente a una presuscripción o un arreglo comparable, o cargos que usted a disputado por servicios de información a cobrar interestatal tarifados.
- Cuando es posible técnicamente, usted puede obtener el bloqueo de acceso a servicios ofrecidos en el código de acceso del servicio 900 sin ningún cargo y solamente una vez antes del 1ero de enero 1994 o dentro de 60 días después de que usted se suscribe a un nuevo numero y se hace efectivo. Otras demandas por bloqueo y demandas por desbloqueo serán sujetas a un cargo único razonable. Nuestras tarifas incluyen los términos y condiciones que aplican.
- Usted tiene el derecho a no ser cargado por servicios pagar-por-llamada no ofrecidos conforme con las leyes federales y regulaciones establecidas bajo Títulos II o III de la Acta de Revelación Telefónica y Resolución de Disputas.
- Su acceso a servicios 900 puede ser bloqueado involuntariamente por una falla en pagar cargos legítimos por el servicio pagar-por-llamada.

Llamadas Por Cobrar

Cuando usted recibe una llamada por cobrar, antes de aceptar la llamada, usted tiene la opción de preguntar al operador cuanto le van a cobrar y quién le está llamando. Si usted no reconoce a la persona que le está llamando por cobrar, use cuidado en aceptar la llamada. Sabemos que en el pasado algunas personas llamando por cobrar han tratado de mantener la persona llamada en la línea el máximo de tiempo posible para aumentar los cargos por llamadas por cobrar. Si usted no reconoce los cargos por cobrar en su factura o si usted cree que le han cobrado más de la cantidad del precio citado por el operador, favor de llamar a su compañía telefónica local. Usted tiene el derecho de disputar cargos desautorizados en su factura.

ES POSIBLE QUE USTED QUIERA GUARDAR ESTA DECLARACION PARA SU REFERENCIA EN EL FUTURO.

Directories

The primary purpose of this directory is to furnish you the names and numbers of telephone subscribers in this area. This helps you facilitate the use of telephone service. Addresses are not included in the directory except by customer request. The directory is not intended for use as a mailing guide. One directory for each access line is mailed to the customer each year. You may obtain additional directories for extensions by calling or coming by the business office. We make every effort to see that the directory is as accurate as possible. If you are aware of an error or a problem with the directory, please call the business office.

Directory Accuracy

Great Care has been exercised in the preparation of this directory. The telephone company assumes no liability for damages arising from errors or omissions in the directory. In order that the directory record may contain correct listings, notification of change or errors should be given at once to the business office.

Out of Town Directories

Directories for other cities may be ordered by calling 1-800-792-2665. There is a charge for these directories. Major credit cards are accepted.

Identification of Telephone Employees

If you have reason to question the identity of any telephone company employee seeking to enter your home or place of business, call our business office for verification at 361-872-2211.

Telephone Recorders

If your telephone conversation is being recorded, one of the following conditions must exist:

- All parties being recorded must hear a beep or distinctive recorder tone approximately every fifteen (15) seconds.
- All parties to the telephone conversation must give their prior consent to the recording of the conversation. The prior consent must be obtained in writing or be part of, and obtained at the start of the recording.
- In lieu of the above condition, the recording party can give verbal notification in a clear, unambiguous manner, which is recorded at the beginning and as part of the call. Under certain restrictions, exemptions to these provisions exist for commercial licenses, emergency reporting systems and law enforcement authorities.

Ownership of Telephone Numbers

The ownership of all telephone numbers is vested in the telephone company and the telephone company reserves the right to change the telephone number or numbers of the customer's telephone station or stations, or the central office name associated with such number or numbers, or both, as the operation of the business may require.

For Your Information

SUBSCRIBERS will be held responsible for all TOLL CALLS originating at their telephone, whether made by themselves, their clerks, employees or guests. The company does not oblige itself to have the call OK'd by the subscriber. If service on a call is not satisfactory, notify the operator immediately; otherwise no refund will be allowed. For nonpayment of any rental or toll line charge, the service will be discontinued.

- Please-Do not permit the children or others to play with the telephone and annoy your neighbors.
- Please-Do not repeat a ring less than fifteen (15) seconds- Give operator time to answer. It will help to provide better service if all telephone users observe these telephone habits.
- Find the correct numbers in the directory before you make a call.
- Avoid calling "Information" unless the number is not in the directory.
- Answer calls promptly-wait long enough for any answer-replace the receiver.
- Have a regular place to keep the directory.

Telephone Safety

The telephone is one of the safest appliances in your home or office. There are, however, a few situations where a telephone user needs to be cautious.

- **Use of the telephone near water** — The telephone should not be used while you are in a bathtub, shower or pool. Immersion of the telephone or handset in water could cause an electrical shock.
- **Use of the telephone during an electrical storm** — You should avoid using a telephone during an electrical storm in your immediate area; calls of an urgent nature should be brief. Although La Ward Telephone Exchange, Inc. uses protective measures to limit abnormal electrical surges from entering your home, absolute protection is impossible. There is a remote risk of a dangerous electrical shock from lightning when using the telephone during a nearby electrical storm.
- **Use of the telephone to report a gas leak** — If you think you have found a gas leak, you should not use a telephone in the vicinity of the leak until the leak is repaired. The telephone contains electrical contacts that could generate a tiny spark when you lift the handset and dial. While unlikely, it may be possible for this spark to trigger an explosion if the gas concentration is high enough.
